WORK EXPERIENCE

Web Developer | Good Rep Media

Jan 2025 - Present | Remote

- Architect and deploy WordPress websites and landing pages using Divi Builder, extending child themes with custom PHP and JavaScript for advanced functionality.
- Completely rebuilt Goodrep Media's website designing in Figma then developing in WordPress via Divi theme and extensions (Divi Flish, Supreme).
- Lead performance optimization and Core Web Vital initiatives, utilizing image compression and lazy loading to improve First Meaningful Paint (FMP).
- Execute technical SEO strategies, including Schema markup and Yoast/SemRush configurations, to maximize site indexation and search visibility.
- Manage WordPress environments including multisite systems, WPEngine hosting, GitHub version control, and resolution of complex plugin/caching conflicts.

Graphic and Web Designer | Kotis Design

Jul 2022 - Jan 2025 | Remote

- Developed and maintained Kotis' websites using WP Balery and utilizing custom HTML/CSS, ensuring high performance and responsiveness.
- Utilized performance auditing tools such as Lighthouse, GTmetrix, and WebPageTes to measure, monitor, and improve overall site health.
- Refined user journeys and UX layouts, utilizing HotJar and Google Analytics data to inform design changes that increased conversion rates.

Digital Content Manager | Vibe by California

Dec 2021 - Jul 2022 | Sacramento, CA

- Administered Divi-based WordPress platforms, focusing on technical site maintenance and content performance to drive organic growth.
- Execute full-scale website redesigns using Figma and WordPress, developing custom HTML5, CSS3, and JavaScript solutions.
- Create intuitive UI components and responsive layouts that enhance user experience (UX) and deliver a seamless cross-device experience.
